Why use NASA's Solutions for Enterprise-Wide Procurement (SEWP) IV?

- SEWP has been providing IT solutions to the government for over 18 years.
- SEWP is able to provide a wide product selection because of the varied business types represented by the primes. SEWP has a representation of small, large, veteran-owned, and 8(a) businesses.
- Contract is pre-competed, pre-negotiated, and firm fixed price.
- Request for Quote structure helps provide lower costs to the customer.
- Over 3000 federal sites from all sectors of the federal government place more than 1200 orders each month.
- SEWP office has more than 15 years of administering high-end IT procurements.
- Lowest fee among all GWACs at .45% of quote total with a cap of \$10k SEWP fee per order.
- Over 1.3 million contract line items from over 3000 manufacturers are available.

How it works

There are two steps to using the SEWP contract. Quote request and ordering. Quote request – The easiest and quickest way to receive quotes is to use SEWP's established RFQ utility.

- Easily provide fair opportunity
- Primes are grouped for ease of selection (GTRI is in Group D)
- One RFQ for entire solution no matter the manufacturer
- RFQ utility available 24/7
- Online RFQ utility provides an interface to manage quote responses by individual RFQ

About GTRI

GTRI is a financially sound Small Business established in 1998, with revenues that exceed \$300m annually. With Relentless Commitment, GTRI is focused on becoming the premier solutions integrator enabling federal agencies to meet or exceed their diverse business requirements. GTRI delivers innovative enterprise and operational solutions through collaborative federal agency partnerships to enhance their ability to serve, protect, and defend.
